Instructions for the proxy configuration in Safari browser

To configure the proxy service in Safari browser you need to perform the following steps:

1. After clicking on the Safari Menu at the top left, select the "Preferenze (Preferences)" item as indicated in Figure 1.

Figure 1 – Preferences

2. Select the "Avanzate (Advanced)" tab and click on Proxy, "Change settings" button, as shown in figure 2.

Figure 2 - Advanced - Change settings.

3. In the "Proxy" tab check "Proxy Web (HTTP)" and enter **proxy.unito.it** in the box "Server proxy web" and in the box alongside the value **3128** as shown in figure 3. Then click on the "OK" button.

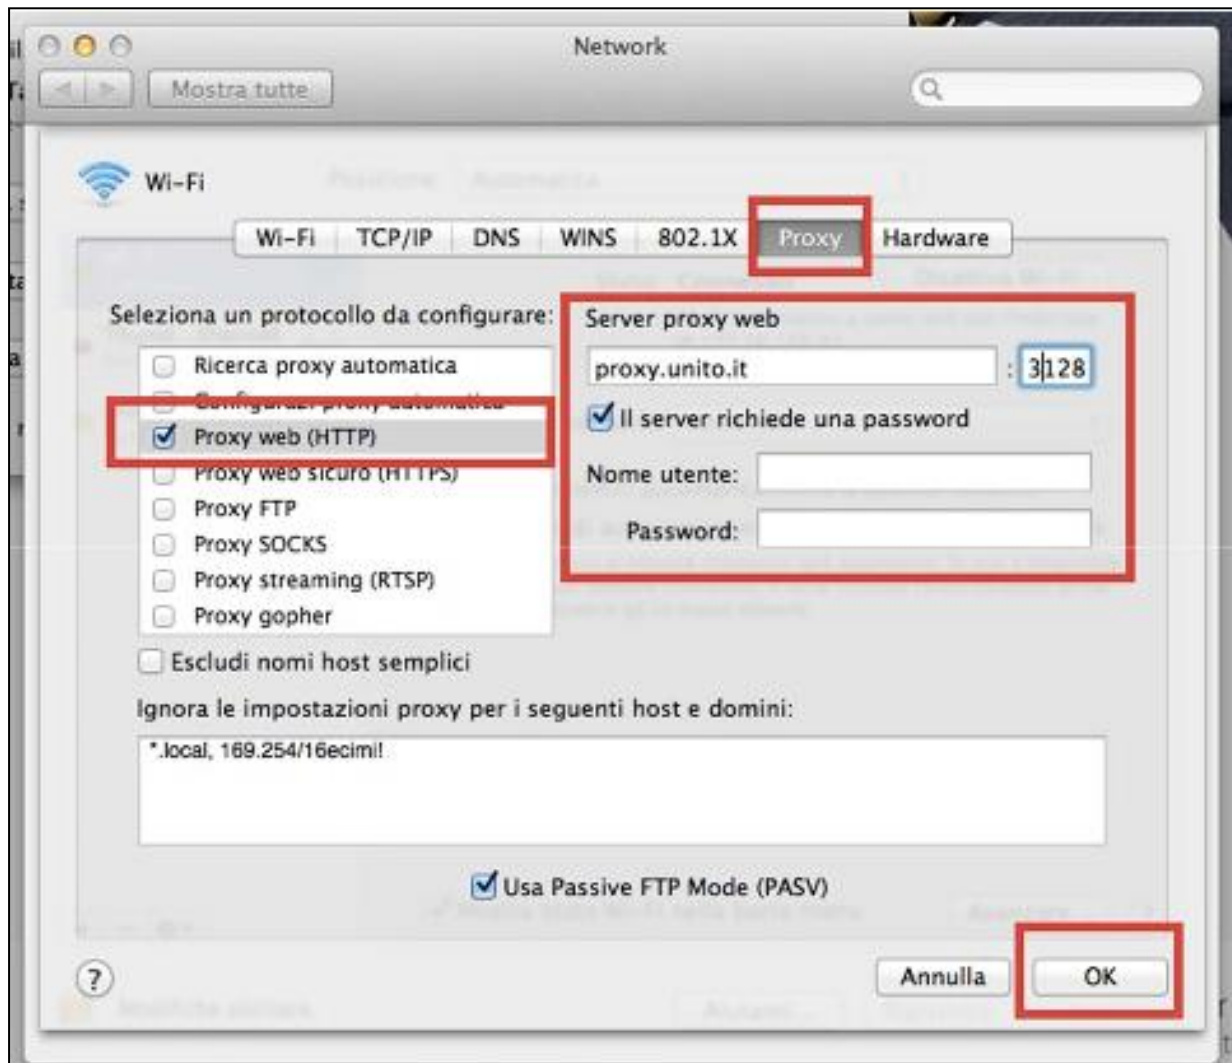

Figure 3 – Proxy

4. A confirmation tab will open, where you will have to click on the "Apply" button, as illustrated in figure 4.

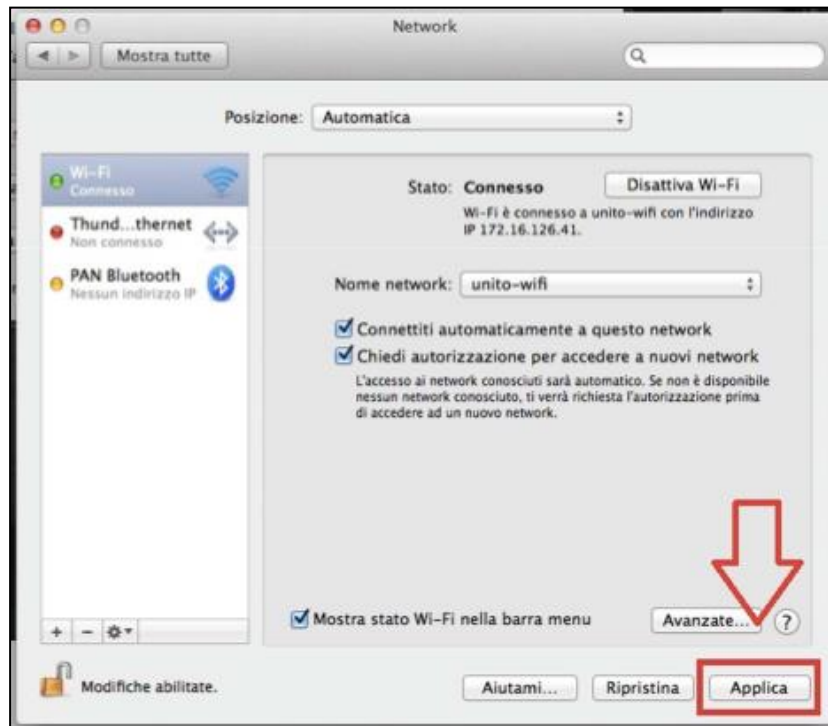

Figure 4 – Apply

Now you can start browsing. Enter UniTO access credentials when requested. The same section also publishes instructions for the other main browsers in use.
